# Testing Report for CREAM 1.14.0 for EMI-2 RC2 (Savannah task #21059 )

## Deployment tests

### Clean installation

#### Yum installation

##### SL5\_x86\_64

yum installation log for SL5 is available here

The installation went ok just because the package lcas-lcmaps-gt4-interface (which is needed) was removed from the emi-cream-ce metapackage for the time being (waiting for its inclusions as external)

##### SL6\_x86\_64

yum installation log for SL6 is available here

Besides emi-apel.core, the other missing component is the package lcas-lcmaps-gt4-interface, which for the time being was removed from the emi-cream-ce metapackage (waiting for its inclusions as external))
