glite-ce-allowed-submission

Section: User Commands (1)

Index

NAME

glite-ce-allowed-submission - Checks if new job submissions to the specified CREAM CE are allowed.

SYNOPSIS

glite-ce-allowed-submission [options] <host>[:<port>]

DESCRIPTION

glite-ce-allowed-submission is the command used to check if job submissions to the considered CREAM service are allowed or have been disabled by the system administrator via the glite-ce-disable-submission or because the condition specified in the CREAM configuration file has been met.

OPTIONS

--help, -h

Displays command usage.

--conf file_name, -c file_name

Specifies the user specific configuration file.

--donot-verify-ac-sign, -A

Allows the execution of the command even if the VO voms server certificate is not installed.

--nomsg, -n

This option makes the command print on the standard output only the result of the operation (or error messages in case of failure). Therefore any warning or info message is suppressed if this option is used.

--debug, -d

When this option is specified, debugging information is displayed on the standard output and written also into the file glite-ce-allowed-submission_CREAM_<username>_<date>_<time>.log file under (by default) the /tmp/glite_cream_cli_logs directory.

--logfile file_name, -l file_name

When this option is specified, a command log file (whose pathname is file_name) is created.

--version, -v

Displays the version of the CREAM CLI software.

EXIT STATUS

glite-ce-allowed-submission exits with a status value of 0 (zero) upon success, and >0 (greater than zero) upon failure.

EXAMPLES

```
> glite-ce-allowed-submission grid006.pd.infn.it:8443
```

Job Submission to this CREAM CE is disabled
