PATCH 4119.....	1
Upgrade from production.....	1

PATCH 4119

Since this patch differs from patch #3959 just for the use of a newer util-java version (to fix bug #67302) as agreed in the EMT no formal certification is needed (tests will be done in staged-rollout).

Submission tests were done by the user (whose certificate is signed by the IHEP CA) reporting bug #67302, who confirmed that the fix works.

Other basic submission tests were done using user certificates signed by the INFN CA and by the CERN CA.

Upgrade from production

- Upgrade steps:

```
wget http://etics-repository.cern.ch/repository/pm/registered/repomd/name/patch_4119/etics
yum update
/opt/glite/yaim/bin/yaim -c -s site-info.def -n creamCE -n TORQUE_server -n TORQUE_utils
```

- View the log of yum for an upgrade
- View the log of yaim for an upgrade (TORQUE is used)
