

## Some additional tests (27/04/09):

Some additional tests done after porting of a fix for bug #47090 from VOMS 1.8

- re-installed the testbed cert-voms-02.cnaf.infn.it
- upgrade from patch #2713 to patch #2717 using this [new repo](#) for patch #2717
- run the testsuite downloaded from [here](#)

### check bugs:

- BUG #47090 : HOPEFULLY FIXED
- BUG #46689 : source code changes FIXED
- BUG #46690 : source code changes FIXED
- BUG #46691 : source code changes FIXED
- BUG #47718 : HOPEFULLY FIXED

## Check Bugs:

- BUG #39646 : "edg-voms continues to run with no logs despite /var/log/glite not existing" FIXED
  - ◆ Start VOMS core with a LOGFILE parameter pointing to a non-existing directory, like for ex. `--logfile=/var/log1/glite/voms.sa3test` Check it throws an error message and exits, such as the following:

```
[root@cert-voms-02 testsuite]# /opt/glite/sbin/edg-voms --conf /opt/glite/etc/voms/sa3test --logfile=/var/log1/glite/voms.sa3test
logging could not start! Logfile /var/log1/glite/voms.sa3test could not be opened,
```

- BUG #41352 : FIXED
- BUG #41354 : FIXED
- BUG #42601 : "voms-proxy-init should accept -old option" FIXED
  - ◆ Issue a "voms-proxy-init --old" and check it is successful
- BUG #43942 : "voms-proxy-info error for non standard location of CA files" FIXED
  - ◆ Issue a `voms-proxy-init --key userkey.pem --cert usercert.pem`
  - ◆ Change the certificates location, as for ex.:

```
mv /etc/grid-security/certificates /etc/grid-security/certificates-new
```

- ◆ Issue a 'voms-proxy-info', it should print out an error message like the following:

```
[root@cert-voms-02 testsuite]# voms-proxy-info -all
unable to access trusted certificates
Function: proxy_init_cred
```

- BUG #44160 : "Strange segfault in voms-proxy-init with erroneous command line" FIXED
  - ◆ Issue a "voms-proxy-init --key userkey.pem --cert usercert.pem --voms sa3test --debug", it should return a message of the type:

```
Found non option element --debug in command line.
```

- BUG #45132 : "VOMS Logging, File logging can't be switched off." FIXED
  - ◆ Add specific option "--nologfile" in the "voms.conf" file di conf for voms
  - ◆ Delete the standard logfile under "/var/log/glite/"
  - ◆ Re-start VOMS and check if the logfile gets re-created by issuing a "voms-proxy-init -voms ..." for ex.

## VomsTestsP2717 < EgeeJra1It < TWiki

- BUG #45133 : "VOMS File Logging Fails when file history rotation not preserved." FIXED
  - ◆ Delete one of the sequence of log files, like for ex. " /var/log/glite/voms.sa3test.1"
  - ◆ Issue a "voms-proxy-init" and check the log file /var/log/glite/voms.sa3test gets populated regularly
- BUG #45331 : "voms-proxy-init -key XXX -cert YYY uses the DN from the hostcert/key" FIXED
  - ◆ Issue a "voms-proxy-init -key XXX -cert YYY" and check it is successful
- BUG #45941 : "VOMS' expat.m4 is not 64 bit safe" FIXED
- BUG #46605 : "Proxies created by the 1.9.0 Java APIs fail verification" FIXED
- BUG #46866 : "[VOMS] validation of proxies created by java fails" FIXED
