Re-parenting a topic

The breadcrumb displayed with a particular TWiki topic is constructed with a topic's **parent**. The footer of each page has a link called **[More topic actions]**. Within this page there is a section that will allow you to set a new parent for the page.

To re-parent a page:

1. Enter name of new parent topic, or pick from a list
2. Click on the **[Set new parent]** button

You will notice that the breadcrumb will now reflect the new parent.
