

NOP -- template text not to be expanded in instantiated topics

- Syntax: `%NOP%`
 - ◆ In normal topic text, expands to `<nop>`, which prevents expansion of adjacent variables and wikiwords
 - ◆ When the topic containing this is used as a template for another topic, it is removed.
 - Syntax: `%NOP{ . . . }%` **deprecated**
 - ◆ In normal topic text, expands to whatever is in the curly braces (if anything).
 - ◆  **Note:** This is deprecated. Do not use it. Use `%STARTSECTION{type="templateonly"}%` .. `%ENDSECTION{type="templateonly"}%` instead (see TWikiTemplates for more details).
 - Related: HIDE, STARTSECTION, TWikiTemplates
